

Introducing the innovative answer to your pressing problems

KWIKTABLE

The cost-effective pressing solution from the company that introduced the SureStop and KwikSet ranges to the fabrication industry.

Advantages of KwikTable:

- Walk through for easy setups, with each table having its own jiggling
- Standard size tables 3m x 450 wide x 15 tables
- Traveling press head with a 30 tonne capacity
- Both plates are pressed at the same time
- Tables that are pneumatically locked in position
- Joystick control with electronic pressing sequence
- Laser protection to avoid injury
- Current pressing times equivalent to pedestal jig with two press heads
- Able to setup for the most complex designs
- Jacks and creepers can be pressed with larger spans at the same time
- Extra tables can be added to make the KwikTable any length
